GLOBAL SUPPLY CHAIN SECURITY STATEMENT

Molex is committed to acting with Integrity and Compliance & Stewardship in everything we do; as is consistent with the core values characterized in our MBM® Guiding Principles.

Molex has Global Supply Chain Minimum Security Standards aimed to protect our company, partners, and society from potential supply chain threats and risks.

We hold ourselves and our business partners accountable to these standards, recognizing everyone's role in creating long-term value and upholding global supply chain security.

These standards promote awareness designed to prevent criminal activity that includes drug trafficking, terrorism, money laundering, diversion, human smuggling, and illegal contraband.

A handwritten signature in black ink, appearing to read 'Don Hnatyshin', is written over a thin horizontal line.

Don Hnatyshin
Senior Vice President
Chief Supply Chain Officer
